

**COLORADO RIVER RECOVERY PROGRAM
FY 2006 ANNUAL REPORT**

Project No.: PIP 12B

I. Title of Proposal: **Public Involvement Accomplishments for the Recovery Program on the Mainstem of the Colorado River**

Lead Agency: Bureau of Reclamation, Western Colorado Area Office

II. Principal Investigator: Justyn Hock

III. Project Summary: The mainstem of the Colorado River from Rifle, Colorado, to Lake Powell, Utah, supports populations of Colorado pikeminnow, humpback chub, razorback sucker, and bonytail. One focal point of recovery efforts of these endangered fish is the 15-Mile Reach of the Colorado River immediately upstream of the confluence with the Gunnison River, near Grand Junction, Colorado. Capital improvement projects concerning this 15-Mile Reach include:

A. Grand Valley Water Management: Development of a water supply alternative for the 15-Mile Reach of the Colorado River. Included in this project are efficiency improvements to the Government Highline Canal, part of Reclamation's Grand Valley Project, and delivering surplus water from Green Mountain Reservoir to the Grand Valley Power Plant near Palisade, Colorado. These improvements are expected to conserve a significant amount of project water to benefit the habitat of the four endangered fish species in the 15-Mile Reach.

B. Price-Stubb Diversion Dam: The Price-Stubb dam is the last remaining barrier to opening up endangered fish habitat extending from Lake Powell to Rifle, Colorado. During this fiscal year, design work was completed on the fish passage only and fish passage with whitewater park options.

IV. Study Schedule: Ongoing public involvement support for capital improvement projects.

V. Relationship to RIPRAP: General Recovery Program Support Action Plan

VI. Accomplishments of FY 2006 Tasks and Deliverables, Discussion of Findings and Shortcomings:

A. Tasks:

1. Develop public awareness and support and/or informed consent for Recovery Program activities/projects
2. Provide support for the Information and Education Coordinator

B. Strategies:

1. Media:

- a. Produced and distributed news releases regarding construction of fish recovery structures. (Ongoing)
- b. News articles appeared in local newspapers about the Recovery Program projects/proposals. (Ongoing)

2. Meetings:

- a. Coordinated news releases with water users. (Ongoing)
- b. Arranged meetings with local congressional staff to keep them up-to-date and aware of Recovery Program activities that Reclamation is involved with in the area.
- c. Organized a public information meeting on August 22, 2006, in Grand Junction, re: the proposed whitewater park and fish passage at Price-Stubb diversion dam.
- d. Participated in Information and Education Committee meetings. (Ongoing)

3. Tours:

- a. Arranged tours of the Grand Valley Recovery Program's completed facilities and proposed fish passages, grow-out ponds, fish screens, and habitat restoration areas (as needed).

4. Other:

- a. Assisted the Information and Education Coordinator with various Recovery Program activities as needed.

VII. Recommendations: None

VIII. Project Status: On track and ongoing

IX. FY 2006 Budget Status:

- A. Funds Provided: \$16,000
- B. Funds Expended: \$34,000
- C. Difference: \$18,000
- D. Percent of the FY 2006 work completed, and projected costs to complete: N/A
- E. Recovery Program funds spent for publication charges: None
